AdvancEd/QAR Discussion

The CDC reviewed the Accreditation Web page, which is now near completion, and noted the significant sections, i.e., Documents, Organization Chart, Artifacts and Schedule.

Looking at the schedule, time was spent discussing the 3:45 Teacher Interviews that will take place on Monday March 5. The CDC will act as the District Improvement/QAR Team as they represent the entire district and meet monthly to discuss school improvement issues. A framework for thinking about their work on various committees such as CDC, Steering Committees, building level school improvement teams, PLC, Staff meetings, monthly 2 hour professional development, etc. and how this work moves the district forward. This framework should help them during the interview process.

Getting the Building Ready for the Visit

Discussion was held on what some of the buildings were doing to get ready for the QAR Visitation.

Classroom Visits

Discussion was held on how to prepare for a QAR Classroom Visitation

QAR Exit Meeting

CDC members were asked to work with their principal to determine how many teachers would be coming to the Exit Meeting on March 7 at 4:00 p.m. in the Board Room. The numbers from each building should be called in to me in the next week or two.
