

## **Baker College online application and registration forms for Direct Credit classes:**

Our application is now web-based and very user friendly. Below are the links to the application and registration forms.

### **APPLICATION:**

The first time a student completes this process they need to fill out an application form, which they need to complete only one time.

Students can access the application form by [Clicking Here](#). Once they get to the website, they click on "Baker Direct Credit/Early Middle College Application".

### **REGISTRATION:**

Once the application has been completed, or if they have previously taken courses, they can then request to be registered for direct credit courses by [Clicking Here](#). This form can be accessed on any computer or smartphone and should make the registration process much smoother. Before a student can register, however, they will need to know the Baker College course code for the class(es) they wish to take.
