## Pre-Calculus Curriculum Map

## Updated June 2023

| Month | Unit/Topic of Study from CPM | Standards | Key Vocabulary | Test Taking, and Reading, and Engagement Strategies | Math Skills (decipher/use charts and graphs) | Writing in the content area | Assessments |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Sept | Chapter 1: <br> Preparing you for your Journey | F.IF. 4 <br> F.IF. 5 <br> F.IF.7b <br> F.BF. 1 <br> F.BF. 4 <br> A.CED. 1 <br> A.CED. 2 <br> A.SSE. 2 <br> A.APR. 6 | Chapter 1 Vocabulary | *Think-Ink- <br> Pair-Share <br> Mix-Pair-Share <br> *Swapmeet <br> Pairs Compare <br> *Peer Edits <br> *Dyad <br> *Whiparound <br> *"I Wonder..." <br> *Huddle <br> *Traveling <br> Salesman <br> *Silent Debate <br> * Red Light, Green <br> Light <br> * Spy <br> One Stray | You will review and revisit inverse and piecewise-defined functions. You will also be introduced to composite functions. You will define radians, use them to measure angles, and apply these units of measure to the unit circle. | Content Writing Map <br> https://docs .google.co m/documen t/d/1e8Ttlvy zuF5GhHa azWVAqFS 4DzCNc7e McXk ID J H1s/edit | Chapter 1 Team Test <br> Chapter 1 Individual Test |

You will transform functions by shifting and stretching them. You will determine the values of coordinates of key points on the unit circle and use them to calculate the values of sine and cosine for any angle. You will use the unit circle to generate the graphs of sine and cosine. You will | Claim Identificatio n | Unit Circle Quiz <br> Chapter 2 Team Test <br> Chapter 2 individual Test |

|  | Curve | Chapter 3: <br> A.APR. 6 <br> A.APR. 7 <br> A.SSE. 3 <br> A.REI. 7 <br> A.REI. 11 <br> A.CED. 1 <br> F.BF. 1 |  | Chapter3: <br> Huddle <br> Whiparound <br> Red Light, Green <br> Light <br> Participation Quiz <br> I Spy <br> One Stray <br> Gallery Walk <br> Swapmeet <br> Pairs Compare | generate the graphs of the inverse trigonometric functions. You will solve trigonometric equations by looking at a graph, the unit circle, and using the inverse functions on a calculator. You will see how trigonometric equations can have multiple solutions. <br> Chapter 3: In this section you will begin by working with rational expressions. This work will be extended to complex fractions. You will use your algebra skills to solve complicated equations and systems of equations. Finally, you will apply what you have learned to solve a series of word problems. You will learn how to calculate sums of expressions using summation notation. You will learn how to approximate the area under a curve using rectangles and understand what the area under a curve represents. You will apply what you have learned about the area under a curve to everyday situations. |  | Chapter 3 Team Test <br> Chapter 3 Individual test |

| Nov | Chapter 4: <br> Polynomial and Rational Functions | Chapter 4: <br> A.APR. 3 <br> A.APR. 6 <br> A.CED. 1 <br> A.CED. 3 <br> F.IF. 4 <br> F.IF.7c <br> F.IF.7D | Chapter 4 Vocabulary | Chapter 4: <br> Whiparound <br> Pairs Check <br> Hot Potato <br> Fish bowl <br> "I wish..." <br> Team Swap <br> Traveling <br> Salesman | Chapter 4: <br> You will investigate polynomial functions and learn how to sketch their graphs without using a graphing calculator. You will also learn how to write equations from graphs. You will apply the Fundamental Theorem of Algebra to determine all of the roots of a polynomial. You will transform rational functions, learning a new way to rewrite the equations of these functions so that the graphs | Command of Evidence | Checkpoint 4A: Transformations of Functions <br> Checkpoint 4B: Graphs of Trig Functions Checkpoint <br> Chapter 4 Team Test |

|  |  | N.CN. 8 <br> N.CN. 9 |  |  | can be more easily sketched. Next, you will learn to graph rational functions with discontinuities other than horizontal and vertical asymptotes. You will begin by solving polynomial and rational inequalities. To conclude the chapter you will apply what you have learned to some everyday situations. |  | Chapter 4 Individual Test |

| Dec | Chapter 5: <br> Exponentials and Logarithms | Chapter 5: <br> A.CED. 2 <br> F.BF. 5 <br> F.IF.7e <br> F.LE. 2 <br> F.LE. 4 | Chapter 5 <br> Vocabulary | Chapter 5: <br> I spy <br> One Stray <br> Swapmeet <br> Pairs Compare <br> Hot Potato <br> Pairs Check <br> Jigsaw <br> Fish Bowl <br> Dyad <br> Red Light, Green <br> Light <br> Numbered Heads <br> KWL <br> Huddle <br> Gallery Walk | Chapter 5 You will apply what you know about exponential functions, explore equivalent transformations, and investigate the number <br> e. The properties of logarithms are reviewed and proved in this section. You will practice using these properties to solve equations and simplify expressions. You will then graph and transform the family of logarithmic functions | Inference | Checkpoint 5: <br> Rational <br> Expressions and <br> Complex <br> Fractions <br> Chapter 5 Team Test <br> Chapter 5 Individual Test |
| Jan | Chapter 6 <br> Triangles and Vectors | G.SRT. 9 <br> G.SRT. 10 <br> G.SRT. 11 <br> N.VM. 1 <br> N.VM. 2 <br> N.VM. 3 <br> N.VM. 4 <br> N.VM. 5 | Chapter 6 <br> Vocabulary | Whip around <br> Huddle <br> I spy <br> One Stray <br> Give one, Get one <br> All record round robin <br> Think Pair Share Gallery Walk | You will develop and use the Law of Sines and the Law of Cosines to solve non-right triangles. You will learn to solve triangles when the given information does not create one unique triangle. You will learn how to use vectors to describe motion. You will complete vector operations both graphically and algebraically. You will apply your knowledge of vectors to solve everyday problems. | Inference | Checkpoint 6A: <br> Polynomial <br> Functions <br> Checkpoint 6B: <br> Rational <br> Functions <br> Chapter 6 Team <br> Test |

|  |  |  |  |  |  |  | Chapter 6 Individual Test |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Feb | Chapter 8 <br> Extending <br> Periodic <br> Functions | A.CED. 2 <br> F.BF. 3 <br> F.TF. 7 <br> F.TF. 9 <br> F.TF. 10 | Chapter 8 Vocabulary | Dyad <br> Huddle <br> Hot Potato <br> Pairs Check <br> Reciprocal <br> Teaching <br> Red Light, Green <br> Light <br> Think-Ink-Pair- <br> Share | You will use sinusoidal functions in application problems. You will extend your knowledge of modeling with periodic functions to more complex situations. You will generate the graphs of the reciprocal trigonometric functions: secant, cosecant, and cotangent. You will prove and apply trigonometric identities. You will use these identities to simplify expressions and to solve more complex trigonometric equations. | Compare/ Contrast | Checkpoint 8A: <br> Solving <br> Triangles <br> Checkpoint 8B: <br> Vector <br> Operations <br> Chapter 8 Team <br> Test <br> Chapter 8 <br> Individual Test |
| March | Chapter 7 <br> Limits and <br> Rates | Preparation for Calculus | Chapter 7 Vocabulary | Peer Edit <br> Proximity Partners <br> Gallery Walk <br> Pairs check <br> Think-Ink-Pair- <br> Share <br> Mix-Pair-Share <br> Dyad <br> Elevator Talk <br> Walk and Talk <br> Huddle <br> I Spy <br> One Stray | You will look at limits from several perspectives including geometry, graphs, tables, and algebra. You will learn the formal definition of continuity. You will explore rates of change using multiple representations. You will calculate average rates of change and use these averages to estimate instantaneous rates of change. You will look at the slopes of secant and tangent lines. You will use limits to determine instantaneous rates of change. | Review | Checkpoint 7A: <br> Solving <br> Equations with <br> Exponents <br> Checkpoint 7B: <br> Solving <br> Logarithmic <br> Equations <br> Chapter 7 Team Test <br> Chapter 7 Individual Test |
| April | Chapter 9: Matrices | Chapter 9: <br> N.VM. 6 <br> N.VM. 7 <br> N.VM. 8 <br> N.VM. 9 <br> N.VM. 10 | Chapter 9 Vocabulary | Chapter 9 <br> Red light green light <br> Think pair share Dyad I spy | Ch 9: <br> In this section, you will learn what matrices are and how to perform basic operations with matrices. You will also learn how they can be useful for solving systems of equations with many | Testing | Checkpoint 9A: Limits <br> Checkpoint 9B: <br> Rates of Change |

|  |  | N.VM. 11 N.VM. 12 <br> A.REI. 8 A.REI. 9 |  | One Stray <br> Huddle <br> Pairs Check <br> Whiparound | variables.Linear transformations using matrices are introduced in this section. You will work with $2 \times 2$ matrices as transformations of the plane, learning how to rotate and reflect points. You will compose transformations using matrices and investigate the properties of linear transformations. |  | Chapter 9 Individual Test <br> Chapter 9 Team Test |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| May | Chapter 10 Conics and Parametric Functions | Chapter 10: <br> G.GPE. 3 <br> F.IF. 10 | Chapter 10 Vocabulary | Chapter 10 <br> Hot Potato <br> Red light, Green Light <br> Huddle <br> Ambassador <br> Think Pair Share | Chapter 10: <br> You will use formal definitions to generate circles, ellipses, hyperbolas, and parabolas. You will identify conic sections from their equations. You will see how a graph can be described by letting $x$ and $y$ be functions dependent on the parameter $t$, called parametric equations. You will use these functions to describe and solve problems involving motion and velocity. | Variety | Checkpoint 10A: Trigonometric expressions and identities <br> Chapter 10 Individual Test <br> Chapter 10 Team Test |
| June | Chapter 11: <br> Polar <br> Functions and <br> Complex <br> Numbers | F.IF. 11 <br> N.CN. 3 <br> N.CN. 4 <br> N.CN. 5 <br> N.CN. 6 | Chapter 11 Vocabulary | Gallery Walk Red light Green light | In your studies of mathematics, you have graphed points using rectangular coordinates ( $x, y$ ). In this chapter you will learn how to plot points and graph functions with polar coordinates, which use a distance and an angle. <br> You will then apply your work with polar coordinates to the world of complex numbers. You will graph complex numbers and learn to rewrite them in polar form. You will also perform operations with complex numbers in polar form, including multiplying, dividing, |  | Checkpoint 11: Operations with Matrices <br> Chapter 11 Individual Test <br> Chapter 11 Team Test |
